

## TELECOM & DATACOM SERVICES

### POWERING OUR PARTNERS SINCE 1913

For over a century, I.B. Abel, Inc. has set the standard in electrical contracting. Headquartered in York, Pennsylvania, we design, build, maintain, and service systems that power the world around us.

What truly makes I.B. Abel unique is our people. Our skilled, agile workforce combines entrepreneurial spirit with a relentless focus on safety, quality, and ensuring we meet every challenge with confidence.

From humble beginnings in appliance repair to becoming a trusted national partner, our story reflects over 100 years of innovation, resilience, and excellence. Today, we continue to lead the way in delivering our partners solutions that power progress.

### SAFETY & QUALITY

At I.B. Abel, safety isn't just a priority — it's the foundation of everything we do. For over a century, we have built one of the industry's most comprehensive safety programs, focused on protecting our people and ensuring the highest quality outcomes for our partners.

Our unwavering dedication to safety protects our workforce, strengthens our project results, and upholds our reputation as a trusted leader in safe, reliable electrical contracting. Our goal is simple: zero injuries and zero incidents.
